

Book Order Challenge

October book orders are due soon and you need to pick out the books you want to order. Mr. Williams has given you each \$40 to spend on the October book order. It is your job to plan and budget your entire book order!

Use either the SeeSaw or Arrow book forms to help plan your order. Don't worry about tax or shipping costs, as it is included in the price.

Make sure you do not go over, as \$40 is the limit.

To help you in your planning it might be beneficial to round to the nearest dollar

While ordering remember the following:

The budget is \$40.

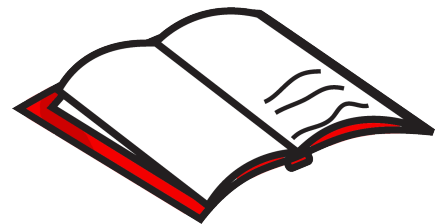

You need to have at least one fiction and one non-fiction book.

You can only buy one book of each title.

Mr. Williams is expecting a plan as to what books you are going to be ordering, the price and total amount proving that you are staying within budget.
